

Abdullah Khalil

Web Developer

I am a highly motivated computer science student eager to apply and expand my skills in both front-end and back-end web development. My proficiency in programming languages and my passion for learning make me an asset to any project. I am excited to contribute my expertise, collaborate with others, and deliver innovative solutions in the field of web development.

WORK EXPERIENCE

Web Developer

H&A Cinema Booking Website (Front End and Back End)

*May 2023 to July 2023
(3 months)*

- Developed a comprehensive web application, providing users with a seamless and user-friendly experience.
- Integrated interactive features, such as dropdown menus, form validation, and dynamic content loading.
- PHP as the server-side scripting language to handle the logic, functionality of the website and MySQL for database.

Back End Developer

*December 2022 to February 2023
(2 months)*

- Created a graph data structure in C++ to represent the map. The graph consisted of nodes representing locations on the map and edges representing the connections between them.
- Conducted extensive testing of the program, including boundary cases and scenarios with varying graph sizes and complexities.
